California's Proposition 65 Announcement

Dear Valued Customer,

California's "Proposition 65" law requires companies conducting business in California to provide a "clear and reasonable" warning before knowingly and intentionally exposing anyone to the specified chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Effective August 30, 2018, changes to Proposition 65 will require changes to the product specific warning in addition to new notification warnings to the purchaser as follows:

- For internet purchases, a warning or clearly marked hyperlink must be provided on the product display page or by otherwise prominently displaying the warning to the purchaser prior to completing the purchase.
- For catalog purchases, a warning must be provided in the catalog in a manner that clearly associates it with the item being purchased.

An example of a Proposition 65 warning for firearms and ammunition is as follows:

⚠ WARNING This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

In order to assist our customers with compliance, Camfour will be identifying the products we sell that are subject to Proposition 65 based on notifications we receive from manufacturers. Please visit www.p65warnings.ca.gov/ for additional information regarding your obligations under Proposition 65.
